

BUMIARMADA

As part of BAUK's local charity and sustainability involvement efforts, furniture items were recently donated to Community Food Initiatives North East (CFINE).

CFINE is a local charity who aim to tackle food poverty whilst improving the health and wellbeing of the local community. Our donation consisted of three surplus barstools which will be used in the newly installed CFINE kitchen "Cook at the 'Nook", which delivers training to local community groups.

A32" inch TV was also kindly donated to CFINE by one of the Kraken crew. The TV made a fantastic contribution to an autistic individual at the charity who has just recently transitioned into independent living.
